

TIMBER TRAILS TIMES

2009 Reflections

Well, after the damage from the 2008 hail storm, the cabins were all re-roofed and painted, some re-siding was done and Pat had updated the fish cleaning shack by adding new sinks.....things were feeling pretty ready as we anxiously anticipated the arrival of summer 2009.....which really never came! In spite of the chilly weather and the strong "breezes", the summer that never was turned out to be pretty good. Most weeks fishing was good and many folks actually appreciated the coolness as opposed to heat & humidity. While it did make it tougher to actually enjoy a week at the lake, no one really let the weather spoil their vacation....and there were NO big storms! It's interesting to look at it from our point of view and then to read the guest journals and look at it from our guest's point of view, SO here are some excerpts...letting you tell your own story!....."weather was questionable, but fishing was delightful".... "ahh- a great week that we always look forward to every year"....."blown off the lake for a couple of days"...."thanx again for such a special place for us to vacation"..."fishing was good, weather was finally like summer!"...."we look forward to next year as soon as we are driving down the driveway!"....."crappie fishing was wonderful"...."they should change the name from TIMBER TRAILS to WINDY TRAILS!!"...."it was nice, we ate fish and are leaving with fish"...."our two children loved the simplicity of staying here"..."another wonderful father-son time away at the best place to take a break from the world."...."quite windy, but the fishing was good"...."I love TIMBER TRAILS - best week of the summer!"...."beautiful mornings, great sunsets, starry nights, eagles, loons and the great outdoors"..."we have made lasting friendships and it warms our souls"..."it's hard not to love it here and that's why we keep returning year after year, making memories to take us thru the rest of the year"..."enjoyed father-daughter time out on the lake"...."thank you, Pat for helping with the boat and fixing our fishing rods, we appreciate your caring"...."had another great week at TTR, catching fish & rain drops"..."as always, the fish fry was fantastic even if we did have to wait an hour for the rain to pass"..."2 newbies along this year & they are now hooked on *Pair-a-Dys* at TTR!"..."loved my massage, great addition to TTR amenities"..."as I sit here and look at the lake and cry like a little baby...I hate leaving!! but we can't come back unless we leave - counting down the days until we do so!!!"..."We see a lot of familiar faces that have been around for years & years & are glad to be two of them"..."thanx for all the continued improvements"..."the R & R was just what I needed and no better place to get caught up on it than here at TIMBER TRAILS!"...."

And so you can see that "Whether the weather is hot or whether the weather is cold, whether the fish bite or not, a TIMBER TRAILS *PAIR-A-DYS* vacation and it's memories are like gold! ... We love you all and thank you for your continued support and trust in us!....that said....**LET THE 2010 SEASON BEGIN!!!!!!**
